CONTRACT RECORD S700-CVF01-LB04

LB04 AFT SECTION TRANSPORTATION

aircraft carrier
alliance
Delivering the Nation's Flagships

CONTRACT RECORD S700

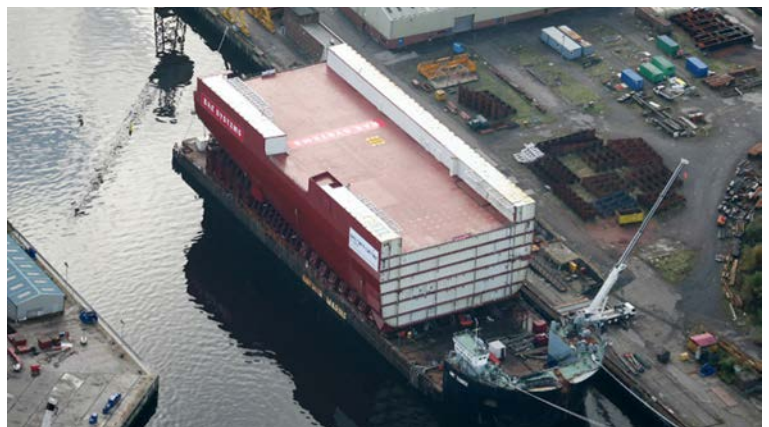

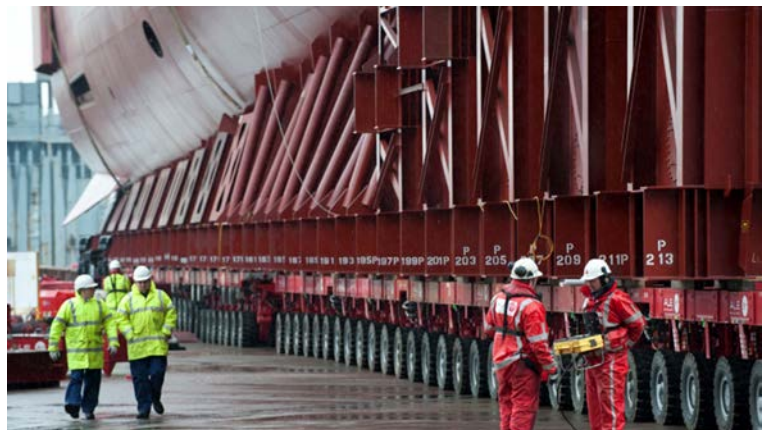

- **Scope:** To provide a turnkey transportation solution for the relocation of the aft section of the UK's new aircraft carrier from Glasgow, to Rosyth, UK.

Initially the circa. 11,500 Te section was weighed by Malin Abram to determine the exact weight and cog for final engineering and planning purposes.

Thereafter, Malin Abram took delivery of the block, on the hardstand within the client's build sheds in Glasgow and project managed every aspect of the delivery through to Rosyth.

All aspects of planning, project management, port and harbour tug liaison, chartering of suitable seagoing tonnage, hire of SPMTs, weighing and all mooring spreads and deck equipment (grillage seafastening) were closely controlled by Malin Abram to ensure a seamless end result was delivered for the client.

- **Client:** Aircraft Carrier Alliance
- **Cargo:** 11,500 Te LB04 aft section
- **Locations:** Glasgow, Rosyth
